About Manual Handling

This qualification is designed to provide learners with the knowledge and skills to safely move objects in the workplace.

The course builds on the best practice guidance from the Health and Safety Executive and provides learners with the opportunity to practice safe moving principles.

The Health and Safety and Work Act 1974 and the Manual Handling Operation Regulations 1992 require each employer to provide adequate supervision and training and as well as undertake manual handling risk assessments. This qualification will support employers to demonstrate their commitment to the legal obligations.

The qualification is ideal for new starters, existing staff and for refresher training.

Assessment

The practical Learning Outcomes are assessed by observation. Multi Choice Questions (MCQ) for theory and underpinning knowledge. To Award this qualification the Learner must 100% pass of the assessments carried out by observation together with a percentage pass in the MCQ paper.
